SUMMARY

Java Backend Developer with project experience in building robust backend applications using Spring Boot, REST APIs, and MySQL. Proficient in delivering efficient solutions that meet business requirements and enhance system performance.

SKILLS

Programming Languages: Java, Python, SQL

Frameworks: Spring Boot, RESTful APIs

Technical Concepts: Object-Oriented Programming (OOP), Data Structures and Algorithms

Technologies: Computer Networking, Database Management Systems (DBMS)

Tools: GitHub, IntelliJ IDEA, Postman

Development Skills: Debugging, API Integration

Soft Skills: Time Management, Problem Solving

PROJECTS

Smart AI-Based Email Assistant [Github](#)

Sep 2025

Technologies: Java, Spring Boot, WebClient, REST APIs, Lombok

- Developed a Spring Boot REST API that generates email replies based on user input and selected tone.
- Integrated Gemini AI API using WebClient and managed request-response processing.
- Organized the codebase using controller and service layers for enhanced readability and maintenance.
- Implemented input validation and error handling to ensure reliable and secure API responses.

Online Job Portal [Github](#)

Jan 2025

Technologies: Java, Spring Boot, Spring Data JPA, Spring Security, MySQL, REST APIs, Lombok

- Developed REST APIs for job posting features, including create, update, view, and delete operations.
- Implemented secure user registration and authentication using Spring Security with BCrypt password encryption.
- Designed and managed relational data models for users and jobs using MySQL and Spring Data JPA.
- Containerized the application using Docker, enabling consistent deployment across environments.
- Built and exposed APIs following REST standards and tested them using Postman.

Banking Management System

Aug 2024

Technologies: Java, MySQL, JDBC

- Developed a Java-based Banking Management System to manage accounts, deposits, withdrawals, and balance checks.
- Connected the system to MySQL using JDBC to store and retrieve account data in real time.
- Implemented a menu-driven console interface for user interaction and input handling.
- Added basic validation for operations such as withdrawal to prevent insufficient balance issues.

CERTIFICATIONS

Java Full Stack

Wipro

ACHIEVEMENTS

- Completed over 100 algorithmic problems on LeetCode to enhance problem-solving skills in Java.
- Concentrated on arrays, strings, and linked lists to reinforce coding fundamentals.
- Engaged in consistent problem-solving practice to prepare for technical interviews.

EDUCATION

Bachelor of Engineering

May 2022 - May 2026

Dr. D. Y. Patil Institute of Technology, 8.57
